

THICK- 5mm wall thickness makes the X5 stronger - period.

- 5mm wall thickness is a full millimeter thicker than standard bar for added strength.
- Wall thickness reduced to 4mm at ends to accommodate the use of wrap-around style handguards.
- Aircraft grade 7049 T-6 aluminum for greater durability.
- 7/8" outer diameter for use with standard mounts and hand controls.
- Polished and anodized to a high gloss finish.
- Knurled grip & clamp area to resist slippage
- Available in Silver, Gold, Gun Metal, Blue and Red.
- Bar pad included.
